

## FOR LOST CATS,

county dog wardens in our area do NOT pick-up or accept cats. Some city animal controls and some animal shelters take stray cats and some don't. It is recommended that you visit animal shelters in person and contact rescue groups too, but it's also important to post lost cats on lost and found pet sites like:

[www.petfbi.org](http://www.petfbi.org), [www.pets911.com](http://www.pets911.com)  
and [www.craigslist.com](http://www.craigslist.com).

## FOR LOST DOGS,

visit your county dog warden. They will not tell you over the phone if they have your dog.

## PET IDENTIFICATION

The key to being reunited with your pet if he gets lost is having identification. When a new year starts, keep your old dog license AND your new dog license on your pet initially in case groups like the humane society and the emergency veterinarian don't have immediate access to the new license list.

Make sure your pet always wears an ID tag with your name, address and phone. It's a good idea to put your contact info on your pet even if you have a dog license in case someone finds him after hours and cannot reach the dog warden. A microchip permanently imbedded by your vet is also a good idea in case the tags fall off or your pet is stolen.

**If you find a pet, please keep trying to find his parents...someone really wants their best friend home again!**

## FOUND PETS

If you have FOUND a pet, go to [www.petfbi.org](http://www.petfbi.org), [www.pets911.com](http://www.pets911.com) and [www.craigslist.com](http://www.craigslist.com) to place a notice. Whether you are placing info on a lost/found pet Web site, in the newspaper or on a flyer, give a vague description; you don't want someone to pretend to be the owner and claim the animal. Sadly, people sometimes claim lost pets for dogfighting or laboratory testing purposes.

### Other things you can do:

- 1.) Place a found ad in the Toledo Blade (FREE!) and other newspapers.
- 2.) Create a found pet poster. Include a description, the area the pet was found and your phone number. Put up posters in the area you found the animal, at pet supply stores and vet offices. When someone calls, ask for a complete description (like what color collar their lost pet is wearing).
- 3.) Let your neighbors and mailman know you found an animal. Lost pets often stay within a five-mile radius of home initially so someone may know the pet.
- 4.) Contact vet offices in the area the animal was found to see if any animals are reported missing.
- 5.) Report found pets to K100. They announce found pets on air and post them on their Web site. E-mail [pets@k100country.com](mailto:pets@k100country.com)
- 6.) Post a found pet message on the Best Friends Animal Society Network. Visit <http://network.bestfriends.org>, click "Go Local" and then choose Ohio or Michigan. Click "Forum" on the right side of the page and post your message.
- 7.) Call and visit the county and city animal control, animal shelters and rescue groups to see if any pets were reported missing. Visit the "Resources" section of [www.humaneohio.org](http://www.humaneohio.org) for a list of shelters/rescue groups.
- 8.) Take advantage of social networks like Facebook and Twitter and ask people to repost and share the info about the found pet. Visit the "Toledo Area Lost and Found Pets" Facebook page.
